Info@nexthreat.com

We assist executives and technical staff in analyzing and extracting critical intelligence from immense amounts of data to meet requirements and ensure their organization is operating in a secure and efficient manner. Distinct experience and ingenuity are necessary to identify the types of data required to power effective metrics, detect cyber threats, and maintain compliance in dynamic environments. NexThreat can make your security organization perform better, execute more efficiently, and start discovering threats proactively – instead of reactively.

NexThreat. Data, Intelligence, Action.

CYBER THREAT HUNTING

- Threat pattern discovery
- Threat program creation
